The amendment received 23 November 2004 has been made of record. Claims 1-52 are pending.

Claims 1-13, 15-19, 21, 23-25, 28-36, 38-47 and 49-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over GB '092 in view of GB '388 and Reichert et al.

This rejection is maintained for reasons of record. Applicants have argued that the Reichert reference fails to teach the amounts of phosphates or borates claimed instantly. The examiner directs applicants' attention to claims 6 and 11 wherein amounts such as claimed instantly are taught.

Claims 20, 22 and 37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 14, 26, 27 and 48 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1714

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
